Cashmere Hammer Style American Stout ABV 6.5 Time

We really enjoy brewing with rye. It has a dry, spicy characteristic that plays very well with other flavors. In many styles of beer, a touch of rye can be used to bring balance to an otherwise one-directional taste. For this beer, though, we started with the rye and piled it on, ensuring it would play first fiddle. The rest of the ingredients - the base, dark, and caramel malts, along with the Czech Saaz hops - were selected for their ability to highlight the rye and play off of its boldness. Since large quantities of rye can sometimes yield an unpalatable harshness, the finishing touch on this brew was to nitrogenate rather than carbonate. The creaminess of the nitrogen pour smoothes the edge, making for very gentle, yet full-bodied beer. We hope you enjoy.

Rye Saison. At 5.7% ABV, about 30 IBU, and on the higher end of the carbonation spectrum, The Expat is in line with classic definitions of the style – by the numbers, anyway. Unlike most saisons, however, The Expat is brewed with a substantial percentage of rye in the mash. The result is a crisp, effervescent saison that is true in spirit to the style's heritage of fusing refreshment with a bold, spicy farmhouse character. It's a great beer to enjoy on its own in the late afternoon, but may even be better when paired with a meal. As Garrett Oliver writes in The Brewmaster's Table, “With food, the best saisons are beyond versatile” they are virtually invincible.

Innis & Gunn **Table 14**

Rum Cask Style Scotch Ale / Wee Heavy ABV 6.8 Time

We are delighted to present this unique limited bottling of Innis & Gunn finished in oak barrels which previously contained navy rum. Maturation in special oak barrels imparts Navy rums with the sweet, spicy character for which they are renowned. We have long wondered what flavours might be imparted to our beer by finishing it in these same barrels and earlier this year we decided to find out. We brewed a special batch of Innis & Gunn beer and matured it in oak for 60 days. Every single drop spent half of that time in American oak barrels before being refilled into selected navy rum barrels to finish the lengthy maturation. Once the beer had absorbed the unique character the barrels were emptied, the beer blended and then maturation continued for a further 47 days until all of the flavours had married together and mellowed. We think the result is absolutely delicious!

Jopen Doubting Thomas (aka Ongelovige Thomas) is our interpretation of a quadrupel. A distinct beer with rich malt as the main flavour. The American hops gives it a fruity character. This beer is named after the apostle Thomas, who would not believe that Jesus had risen from the dead. Thomas has his name-day at the start of winter on 21 December. This reddish-brown beer is a genuine winter warmer. Surprisingly rich in flavour and ideal for sipping beside the fireplace. Believe it or not, this is a heavyweight.

My Turn Series: Evan Style Munich Dunkel Lager ABV 4.5 Time

This beer was brewed by Evan, one of our third-shift brewers at Lakefront. He wanted to make a beer that reminded him of the small Latino community where he grew up, so he created a Mexican-Style Dark Lager. Pours a transparent amber-brown with a loose white head. Mild caramel malt and slightly spicy Mt. Hood hop aromas lead into fresh-baked, whole-grain bread flavors with toasted malt notes, wrapping up with a crisp lager finish.

New Grist Ginger Style Herbed / Spiced Beer ABV 4.7 Time

We took our refreshing gluten-free beer, New Grist Pilsner, and brewed it with fresh ginger for a zesty, thirst-quenching flavor: introducing New Grist Ginger. This beer pours light gold with a rocky white head kicking out aromas of ginger and malted sorghum. The spicy-sweet ginger greets the palate first, before moving into the familiar flavor of New Grist: tangy green apple, light body, and crisp, refreshing finish. Overall, New Grist Ginger is a flavorful, easy-drinking, session beer with a snappy ginger punch. New Grist Ginger goes great with any variety of ginger-infused Asian dishes, like the sweeter broth of chicken Saigon pho, mild-to-spicy Thai gai pad king, or the spicy citrus notes of chana masala. - See more at: <http://www.lakefrontbrewery.com/beer/year-round/new-grist-ginger#sthash.YkiJt4nl.dpuf>

The Vienna malt gives SMaSH Ale a medium-light body that's immediately sweet up front with slight caramel notes, and lingering biscuit flavor.

In that spirit, we've joined forces to craft a deliciously uncommon springtime golden ale, which blends Old World ingredients with modern flavors. Spelt, malted sunflower seeds, and wild carrot herbs swell for a nutty, bready, grassy wash, while Saaz and Mosaic hops lend spicy, tropical accents to the sip. Time

Wisconsin's history and brewing heritage go hand in hand. In fact, the first brewery here opened before the badger state even became a state (proving that the first Wisconsin settlers had their priorities in order). In 1868, Peter Fauerbach came to Madison and established Fauerbach Brewery on the north shore of Lake Monona. It would serve Wisconsin for the next century, growing from 3,000 to 75,000 barrels annually and creating many wonderful beers along the way. One of their earliest brews was a low-alcohol beer named Nectarine, billed by the brewery as a 'hop and malt tonic' with amazing curative powers. (It was even sold in local pharmacies.) Drinking Nectarine would build 'strength, energy, force and vitality' and help you 'win the battle of life.' The brand's promise was inspired and bold – just like Fauerbach. To honor this iconic Wisconsin brewery, we're proud to adopt the Nectarine name for our own special pale ale. Draw a pint of our NECTARINE, and a hazy orange-gold hue invites you to an ale bursting with citrusy hop aroma and flavor that finishes with a smooth, clean sweetness, enhanced via honey malt and orange peel. It's juicy, refreshing, easy to drink. So while we can't promise it'll change your life, we definitely think you'll enjoy the time you spend getting acquainted. Here's to Fauerbach Brewery and Nectarine, a beer with a little history – and a lot of flavor – in every bottle! AST SPRING, the first educational collaboration between WBC and the UW's College of Agricultural and Life Sciences (Known as Campus Craft Brewery around these parts) created inaugural Red. You loved the idea, the story and the beer. And this year, you're gonna' love the sequel. Presenting S'Wheat Caroline, the second brew from Campus Craft Brewery. This year, it's an American Wheat Ale, inspired by the promise of warm summer days on the Union Terrace, and expertly crafted by students who can't wait to get out there with a pitcher or two. Pour a pint of S'Wheat Caroline and your eyes will be greeted by an inviting yellow-orange haze that (as luscious-looking as it is) can only hint at the delicious taste to come. This well-balanced ale features notes of fruity sweetness and a hoppy nature that's flavorful but far from bitter. Pair that profile with a silky smooth finish and we think you'll agree, S'Wheat Caroline is a real winner. Just like the UW students who put all their knowledge, ingenuity and passion into creating this beer. Fortunately for all of us, they're willing to share. S'WHEAT CAROLINE is a limited release, so be sure to get 'em while they're cold! Look for this brew on tap and in 6-packs, while they last!
