### VIB<sup>SM</sup> Lottery - What is the lottery?

#### VIB<sup>SM</sup> Lottery Beers

**You can have your choice of whatever beers are being offered by lottery. First come, first served. When we run out of each beer that's it, even if you don't get a sample. For some reason we've had people never show up to claim their sample and others who say they'll never come back to our festival because they didn't get the sample they wanted. We strive to have enough so that every VIB<sup>SM</sup> ticket holder will get a sample of some lottery beer but can't guaranty it. If you can't live with the idea of not getting a specific beer sample or maybe not getting any sample at all, the lottery is not for you. All samples must be claimed by 4:30 or they are forfeit.**

Some of the beers are so rare that we can't get enough of any single beer to serve everybody who buys a VIB<sup>SM</sup> ticket. Because we really want to still be able to offer those beers they are served based on a lottery system. This has been pretty popular. Our goal is to get enough lottery beers that every VIB<sup>SM</sup> ticket holder will get a sample of one lottery beer but that doesn't always happen. All the VIB<sup>SM</sup> wrist bands are numbered. Wristbands are distributed randomly at check-in. We randomly draw numbers in advance and post them in the VIB<sup>SM</sup> area at the lottery table, on the wall near the entrance to the VIB<sup>SM</sup> area, and at a few other locations in the general admission area as well.

- The lottery will begin at 1:00 when the festival opens. Please don't rush.
- All numbers will be posted at the start of the festival in groups, each group with a time.
- Each group can get their sample when their time slot comes up or any time thereafter.
- Time slots will be every 15 minutes.
- This means you don't have to keep checking back to see whether your number has been drawn. When your time slot arrives go to the lottery table, get in line, and choose your beer!
